The Object. The department of the east of the United States army, in announcing the

dates of these camps, describes their objects as follows: "To help equip educated men to fill ing them four or five weeks of inten-sive instruction in the field under of-ficers, and with troops, of the regular

past wars, and particular emphasis is given to the subjete of military his-tory."

Will Ald National Guard. The regular army authorities em-phasize the fact that the Plattsphasize the fact that the Platts-burgh camp is in no way a rival in-stitution to the National Guard in the various states. It is rather sup-plementary to the work of the Na-tional Guard. Major-General John F. O'Ryan, commanding the New York National Guard, is a strong supporter of the military training camps and has stated that there was no conflict of interest between the National Guard and the trainare a penalty imposed by the state board of education for the failure of towns to comply with the law.

the National Guard and the training camps. "This question may be answered not only in the negative." he declared, "but it may be affirma-tively stated with equal emphasis that the training regiments have been of benefit to the National Guard of this state at least. A very con-siderable number of men of the Plattsburg training regiment have York National Guard, some as com-missioned officers and some as en-listed men."

Qualified as an Expert. Champ Clark says he knows more about mules than any other congressman, having learned it as a boy in Missouri. Later on his acquaintance with Mr. Bryan qualified him as an expert.—Anaconda Standard. OBITUARY.

Mrs. John Nelson Anderson. The many friends of Mrs. John Nelon Anderson of North Grosvenordale formerly of Norwich, were grieved to learn of her death which occurred at her home Wednesday at 1.15 p. m. aft-er a few days' illness, caused by a paralytic shock. Her maiden name was linga Frederickson and she was born in Sweden on April 18, 1853. She came to America when a young wo-man, and on Occober 30, 1873, was married to John N. Anderson in Woodstock. He survives her. She was the mother of eleven children, ten of whom are living, Charles Anderson of Whom are living, Charles Anderson of Voluntown, Rev. Henry E. Anderson of Rowayton, Conn., Mrs. Andrew S. Dexter of Poquonoc Bridge, Mrs. William A. Lund and Miss Nellie M. Anderson of Norwich, and Lillian E., and Miss E. Harry B. Arthur T. Nina E., Harry R., Arthur T., and John H., all of whom reside at home. She also leaves a sister, two brothers and fourteen grandchildren. She was a loving mother and a loyal friend and her chief delight was her home, where she will be sadly missed by her loved ones. Burial will take place in the West Thompson cemetery. Miss Alice D. Morse.

Alice D. Morse, who may be remem-bered by many of the surviving veter-ans of the Sixteenth Regiment, C. V. died February 29 in the Greenwich hospital. A cripple for many years she formerly lived in Brooklyn but two years ago built a bungalow in Noroton. where she lived until taken to the hospital at Greenwich. She was a person of more than ordinary ability and had written several articles on preparedness and she was thoroughly opposed to the equal suffrage movement. Fred Lamoureux.

Philip Bibeault of this city has re-ceived word of the death of his uncle, Fred Lamoureux, which occurred at his home in Southbridge on Tuesday morning. Mr. Lamoureux had been in poor health for several years and his death was brought on by paralysis. He is survived by his wife. Mr. Bi-beault will leave this (Friday) morning for Southbridge to attend the funeral.

SEARCH FOR OIL IN OHIO.

Facts About the Geology of Woods-

field and Caldwell Districts. The search for new oil and gas pools in southeastern Ohlo has been so thor-ough and persistent that the casual observer might conclude that the chances of finding new producing areas are slight. There is, in fact some ground for that conclusion as to in which there is hope of finding pools, no less than eight sands being productive at one place or another, and some

Simple, Harmless Remedy Brings Quick Relief.

Many cases of immediate relief and rapid recovery from bronchial asthma of long standing and other diseases of throat and lungs are being credited to a discovery made by Dr. Eugene Howard's prescription, which is totally different from all usual methods of treatment for these afflictions, is called Oxidaze and comes in the form of a tablet which the patient allows to dissolve slowly in the mouth. Its curative, healing juices thus mingle with the saliva and enter every crevice of the irritated bronchial membranes, release the muscular constitution of the bronchial tubes, open up the air passages and regulate the spasmodic lung action. These tablets, though pleasant to the taste, are so powerful and rapid in their action that many users who for years were obliged to sit up in bed gasping for breath and unable to sleep report that they now put a single Oxidaze tablet in their mouth when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep. Lee & Osgood and many other mouth when going to bed and can then lie down and breathe easily and naturally and get a good night's restful sleep. Lee & Osgood and many other local druggists who handle Oxidaze tablets sell it on the positive guarantee of money back if it does not give immediate relief.

This of course means a great increase in the use of these goods ove when mince meat was eaten only in the winter months which means an increased sale over the former winter tablets sell it on the positive guarantee of money back if it does not give immediate relief.

KEEP LOOKING YOUNG

it's Easy - If You Know Edwards' Olive Tablet.

The secret of keeping young is to el young—to do this you must watch our liver and bowels—there's no need f having a sallow complexion—dark

rings under your eyes pimples a bil-lous look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent, of all sickness comes from insc-

ive bowels and liver.

Dr. Edwards, a well-known physician no Chio, perfected a vegetable compound mixed with olive oil to act on he liver and bowels, which he gave b his patients for years.
Dr. Edwards' Olive Tablets, the sub-titute for calomel, are gentle in their ction, yet always effective. They bring about that exuberance of pirit, that natural buoyancy which

pirit, that natural buoyancy which nould be enjoyed by everyone, by tonng up the liver and clearing the sysn of impurities. You will know Dr. Edwards' Olive Tablets by their olive color. 10c and the per box. All druggists.

SERV-US MINCE MEAT

Package condensed mince meat is made up today of the best quality of dried fruit and other items which can be found, all of which are found in the United States with the exception of spices and currants. The study of packing condensed mince meat has extended over a period of 100 years and today is as near its perfection as we can possibly conceive. The sanitation in the factories in which it is packed is beyond reproach as the competition today in these lines necessitates the guarding of the most minute detail of the business. The apples used are of the best grade of New York State, where in our opinion is grown the best flavored apple known. The isins used are of the best quality eeded variety. No expense is con-idered in procurring the very highest grade of spices, and sugar, as we all mow, is always sugar, the different rades merely representing the differ-nt flavors or different granulation renired for different purposes. Every particle of fruit or any other article used in the manufacture of mince meat is thoroughly cleaned and hand-picked chance of learning the rudiments of military organization and the use of the military organization and the use of the military rifle. Finally, to use the words of Major General Leonard Wood, "a serious effort is made through lectures to convey a sound and correct idea of the military policy of the United States as exemplified by possibly take the same articles in her of the United States as exemplified by possibly take the same articles in her own kitchen, regardiess of how clean it may be, and make up the filler for past wars, and particular emphasis is given to the subjete of military history." t may be, and make up the filler for ter mince pie. The old idea of dirt peing prevalent in quantity is today disputed by the greatest authorities on food products. The meat used in mince meat is of the choicest and to-day the same corn-beef which you and I would use on our table is what is being used in Serv-us Mince Meat. There are very few ples made which can be used as handly by the housewife as mince meat for all it requires is a little water and being heated for ten minutes and it is ready for the crust and then the table and she may without fear of loss carry three or four packages of mince meat in her pantry, having it ready at any time or the chance occurrence of unexpected company and it will be a good dessert free from dirt. It is our thorough belief that a mince meat ple made from condensed mince meat is about as cheap a dessert as can be prepared and yet as good,

For many years mince meat was considered a winter dish. Each year for the last ten our factory has had to increase its capacity during the summer months until today it runs every day of the year with a regular force of helpers. We ship goods to every part of the country the entire year. This of course means a great increase in the use of these goods over when mince meat was eaten only in the winter months which means an in-

reased sale over the former winter
